

I visited my daugther and had the opportunity to listen to XM radio for the first time. I enjoyed it so much I went out and got service for myself. I just learned about the NAB's petition 04-160 and wanted to add my email to the effort rejecting the petition! I love XM radio, I travel quite a bit for business and leisure and enjoy being able to listen to a station of my choosing wherever I am. Don't allow the petition to take away all the good things about XM.
